On the night of April 28, 1921, the death angel visited the home of Dick Smith and claimed for his victim his beloved daughter, Pauline. She was five years of age. She made friends everywhere she went. We all hate to give her up but God knows best. There is a vacant chair in our home which never can be filled. We miss the sweet, tender voice. We hear the little children call for sister. We can't see why God took her away but it will be plain in the sweet by and by. Pauline is missed everywhere. We miss her at Sunday School.

In Memory

On November 14, 1920 at 2 o'clock p. m. God saw fit to call the dear baby of Mr. and Mrs. Willie Kemp to heaven. Little Leolin was nine months and a few days old. Oh, it was so sad to think that father and mother, brothers and sisters and loved ones had to give up this dear one. He has gone to our Heavenly home where there will be no more deaths, toiling, no sorrow and no deaths, to dwell with his little brother, Woodrow, and grandfather, whom our Lord has so wonderfully blessed, are sleeping in that last resting place, waiting for that great day to come. Oh, how sad it was when I had to tell little Leolin goodbye. I knew it would be the last time in this world that I would see his sweet face. Wait little darling till God calls me, then I will come and join my loved ones and rest with these forever.

**SOUR STOMACH
INDIGESTION**

**Theford's Black-Draught Highly
Recommended by a Tennessee
Grocer for Troubles Resulting from Torpid Liver.**

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's.

To the motorist who has quit guessing about tires —

ALONG about this time of year a man finds his motor- neighbors getting anxious about their tires. With folks expecting old tires to "pop" any minute, there comes the question of what kind of new ones to buy.

U. S. Tires are answering a lot of questions like this nowadays.

The U. S. Tire following embraces two kinds of tire buyers.

Those who started with quality first, and have never bought anything else but the quality standard tire.

Those who came to quality first only after dabbling with "bargains," "rebates," "job lot" and "surplus stock" tires.

Getting one hundred cents value on the dollar in tire buying is a straight-forward business proposition—not guess-work or a game of wits.

The most essential man for you to know today is the local U. S. Tire dealer who is concentrating on a full, completely sized line of U. S. Tires.

He gets his U. S. Tires straight from his neighboring U. S. Tire Factory Branch—one of 92 such Branches established and maintained all over the country by the U. S. Tire makers.

He is the man who can give you fresh, live tires—not stuff shipped to him from some point where it did not sell, but new tires of current production.

Giving the same quality, selection and price-advantage to the owner of the medium weight car as the big car owner gets. With equal service and buying opportunity whether he lives in the smaller localities or the greater centers of population.

THE U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—two diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

"The most essential man for you to know today in the tire business is your local U. S. Tire Dealer."
